## Observations... From Around Town

(BY JAY WHOZIT)

If you've any doubt in your mind that larger hospital facilities are needed in our town, you should have visited the local King's Daughters' Hospital last week end, when eight babies were born between Friday evening and Monday morning, while several more were expected momentarily... included in the eight were one set of twins... Camp Stanislaus opens this Sunday, June 13th with approximately two hundred youngsters between the ages of eight and fourteen expected to attend... the new Stanislaus pier, now under construction, will be practically completed and ready for use by the campers... the rain which fell Wednesday afternoon and night was more than welcome, since the temperature of the past several days had reached 95 degrees, a record high for early June... 17-year old William Floyd West, of Biloxi, was chosen Governor of Magnolia Boys' State held this week in Jackson... local boys attending Boys' State are Cyril J. Fayard, son of Mr. and Mrs. Fred E. Fayard, and Theodore Morel, son of Mr. and Mrs. Theodore Morel... Louisville & Nashville Railroad train schedules are now practically back to the normal existing before the hurricane of September 19th. Effective June 1, all trains were scheduled to arrive at the Crescent City 10 to 30 minutes earlier, while departures were set back 10 to 30 minutes... Monday, June 14th is National Flag Day and will be observed by patriotic organizations throughout the nation in various ways... Wednesday midnight was the deadline for candidates to qualify in order to have their names appear on the ballot in the forthcoming City Democratic Primary Election on July 10th... and speaking of names being placed on the ballot, folks, keep your ears and eyes open for a statement expected from one of the candidates for office of commissioner announcing his withdrawal from the political race... If the announcement comes, and we understand it will, it may have some effect on the outcome of the election... American Red Cross classes in swimming, under the direction of Mrs. L. A. Rogers, were begun this week for children 6 to 12 years, and should be taken advantage of by as many as possible, as every child should know how to swim... Governor Wright certainly had the welfare of the taxpayers of Mississippi at heart, when he announced at Jackson this week that no tax increases would be levied on the public, saying, in part "it is not wise to collect from the taxpaying public money to build up large surpluses" and that no tax should be levied and collected "unless necessary to furnish funds needed for government expenses and the practical expansion of public services"... Brother Peter, of Stanislaus, underwent a major operation at Touro Infirmary in New Orleans Wednesday morning, reports are that his condition following the operation is very satisfactory... With the opening of the new five-mile stretch of highway west of Bay St. Louis last week end, the road between here and New Orleans is now in fine shape all the way, and when the improvements being made on the La. side are completed (taking out some of the dangerous curves) both time and distance will be shortened on the run from here to N. O.

### ST. MARGARET'S DAUGHTERS WEEKLY SEWING CIRCLE

The first of a weekly series of "Sewing for Charity" was begun by members of St. Margaret's Daughters on Tuesday afternoon at the home of Mrs. Earl Weigand.

At the urgent appeal of Pope Pius for winter garments for infants, the ladies decided to purchase bolts of flannel and cut and sew small garments to be assembled into layettes for shipping to Italy in September.

It will necessitate a great deal of cutting and sewing and it is hoped that the bundle St. Margaret's Daughters eventually will complete will represent at least one garment for each member. So if you cannot attend the sewing meets anyone may take a garment home and complete it. The patterns are the simplest possible, the main idea being to provide essentials for people in dire need. Short socks, long dresses and sleeping garments have been cut and are ready to sew.

Mrs. Luke Saucier was made chairman of the sewing circle. At the meeting on Tuesday were Mesdames Luke Saucier, P. J. Treutel, George Guilbault, James Seegher, Scott Assenheimer, George Stevenson and Earl Weigand.

Mrs. Weigand served the ladies ice cream and home made cookies. Any member or friend of St. Margaret's Daughters interested in this project is urged to join in this good work either at home or at the weekly meeting.

## Annual Crowning Of The Blessed Virgin Takes Place At Hotel Dieu, May 23rd.

On Sunday afternoon May 23rd the annual May Crowning of the Blessed Virgin was witnessed by visitors, patients, nurses and doctors who gathered on the galleries of Hotel Dieu facing the courtyard in which the ceremony took place.

Lead by the Cross Bearer and two altar boys followed by the statue bearers, sisters, student nurses and the queen and her court, the procession moved in a dignified and inspiring fashion toward the center of the courtyard where the participants formed a living letter "M" around the altar on which the flower-banked statue of Our Lady was to stand.

During the ceremony traditional hymns to Mary "On This Day, O Beautiful Mother," "Mary Dearest Mother," "Mother Dearest," "Mother, Fairest" and "Bring Flowers of the Rarest" were chanted.

As Julie Elliott, Sodality Prefect, in white gown and veil, placed the crown of platted flowers on the head of our Blessed Lady, the maids, Misses Ethelyn Banquer, Code, Krebs, J. Schexnycder and Sentilles, wearing simple pastel gowns and veils, laid their bouquets at our Lady's feet. Participants then knelt for the solemn recitation of the Act of Consecration. The stirring "Christ the King" was sung as the procession moved toward the Chapel for Benediction.

Eight year old Jacqueline Shimkus, sister of student nurse Ruth Reeves, was the crown bearer; two small pages twin brothers, Billy and Bobby Danna escorted her.

It's Not A Pleasant Thought But It's True That . . .

- \* Hancock County is deepest in debt of any county
- \* Taxes in Hancock County are the highest in the state
- \* Roads in Hancock County are among the state's worst
- \* Hancock County's public schools are among the state's worst (the teachers are not to blame)
- \* Hancock County has failed miserably in getting and keeping industries
- \* Property values in Hancock County are characterized by instability
- \* Few, if any, other counties in the state pay as high interest rates on bonds as does Hancock County
- \* Hospital and other medical services available to Hancock Countians are terribly inadequate (our doctors are not to blame)
- \* Farmers of Hancock County receive little or no encouragement to market their produce and livestock within the County, consequently too many of the farmers' dollars are spent outside the county, never to return.
- \* Other counties along Mississippi's beautiful Gulf Coast are progressing rapidly, but Hancock County appears to be caught in an economic rut . . . stagnating, so to speak.
- \* All these things, and more, add up to the fact that the cost of living (not in dollars alone) in Hancock County is terribly high

# WHAT --- FOR OUR CHILDREN?

DO YOU believe that our children are entitled to better opportunities in education and training for their life's work? DO YOU believe they are entitled to employment, at good wages, and better health protection, the same as children elsewhere get? . . . Or must they move away from Hancock County to find these things, as hundreds do each year?

OUR greatest responsibility as citizens of Hancock County is to provide for our children the maximum of opportunity, security, wholesome environment, and happiness. Are you doing that job well enough now?

HANCOCK County's dream will come true ONLY if WE, the people of Hancock County, make that dream come true. We deserve, and may expect to have, better things in Hancock County ONLY if WE want it so, and ONLY if WE are willing to pay the price (effort). It is not enough to elect good public officials. They can't do the job alone.

ARE YOU satisfied with conditions as they are in Hancock County? If not, then we strongly urge you to attend the next meeting of the Hancock County Progress Association, to be held at the

Courthouse, In Bay St. Louis

EVERYBODY WELCOME

## CANDIDATE FOR MAYOR

## Free Taxation

Hello, Folks:

On May 18th there appeared in this paper an article showing the people the unfair and unjust conditions existing under our present administration. Having received so much favorable comment on this article, I went to the City Hall and took from the records the assessment of all those concerned. From them, I chose one name, Mrs. Rosa Siegerson, who resides on Main Street. Her home is assessed for \$1500.00 which is \$50.00 more than that of our Mayor's home. Mrs. Siegerson's husband, now deceased, was an employee of the Louisville and Nashville Railroad before the old age pension went into effect. She has been a lifelong resident of Bay St. Louis and is well known in our community. It seems unjust that a widow would have to pay more taxes than our Mayor whose financial status is much better.

I want to emphasize to the widows of our city that this is a most important matter for you to consider before casting your vote on the coming election day. If I am fortunate to be selected as the one to handle your city affairs for you as Mayor, it is my sincere wish and desire to give free taxation to those of you widows over sixty.

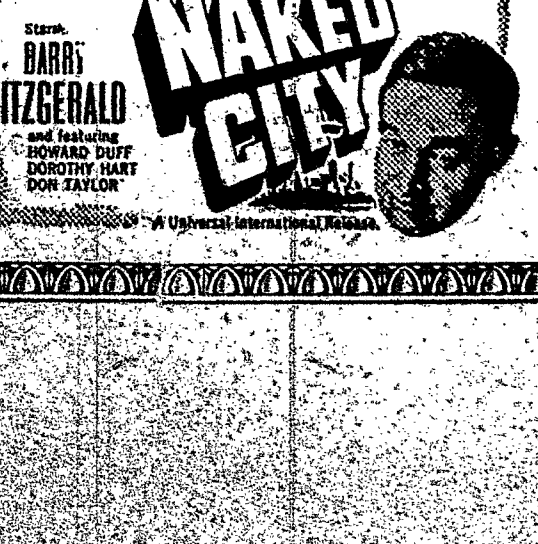

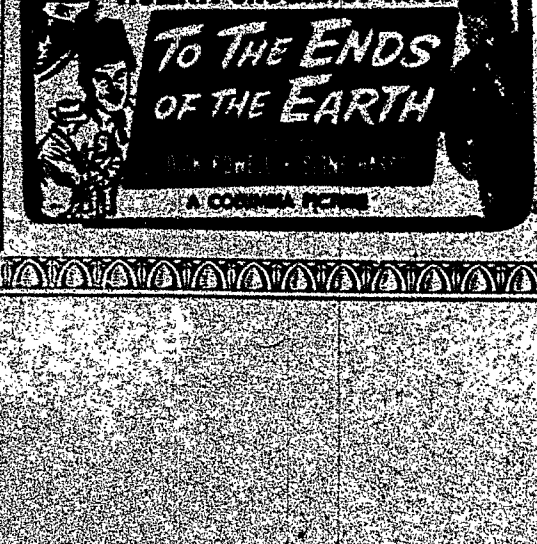

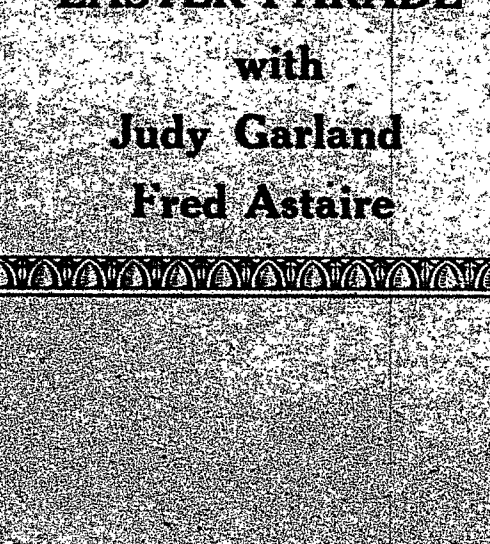

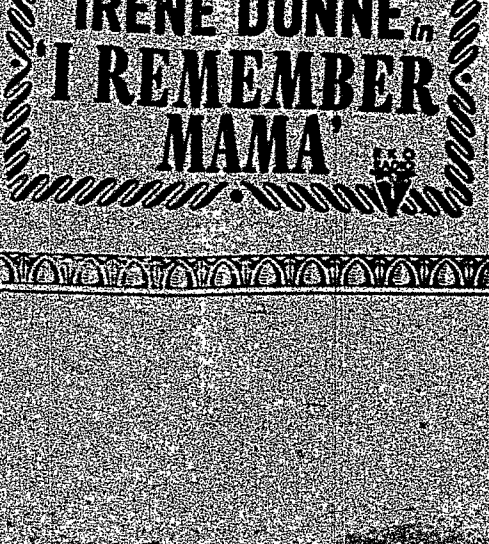

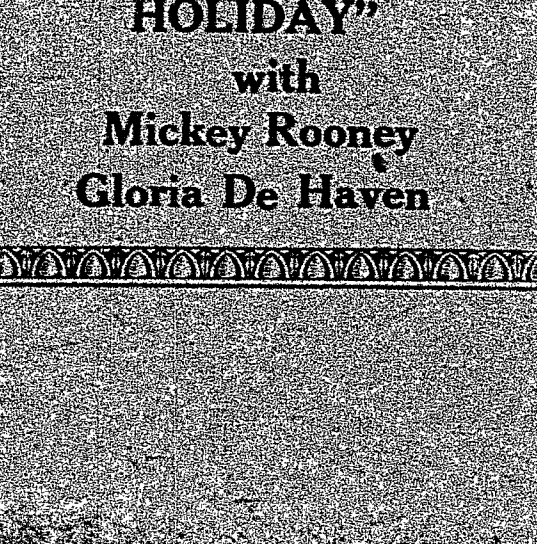

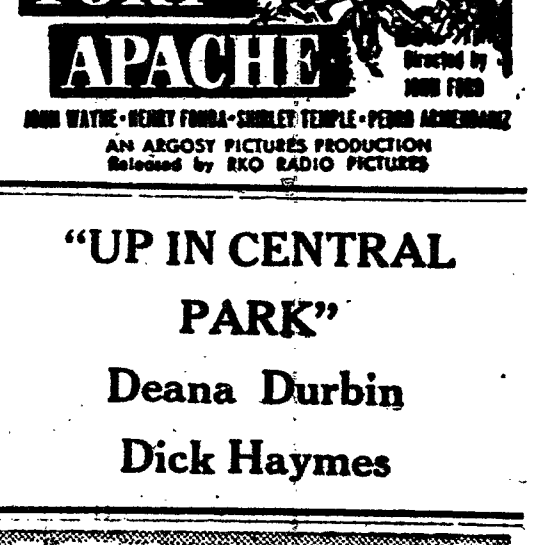

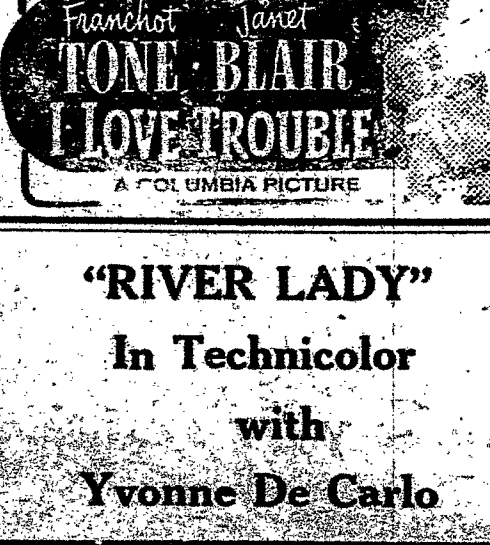

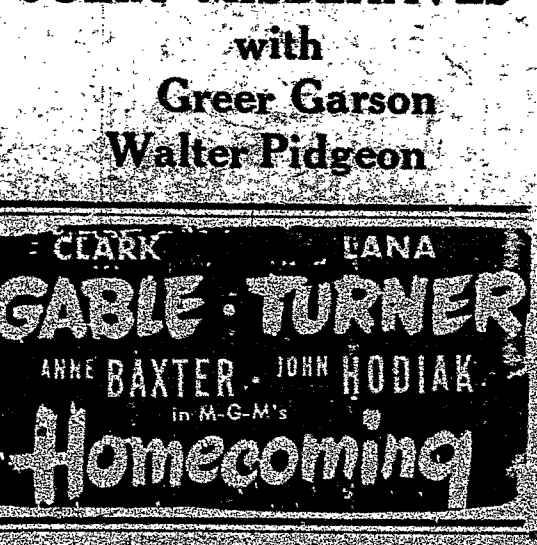

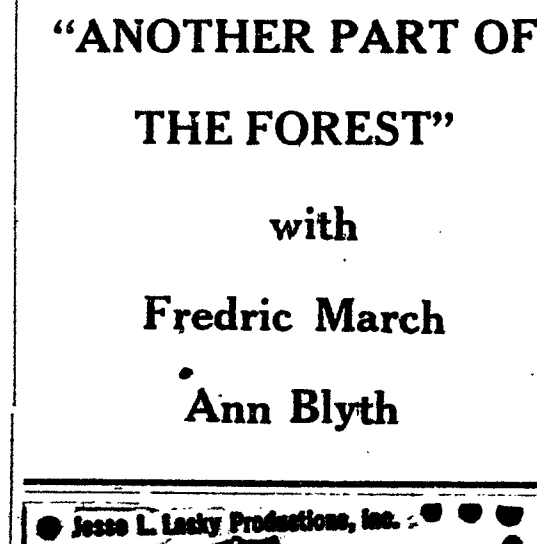

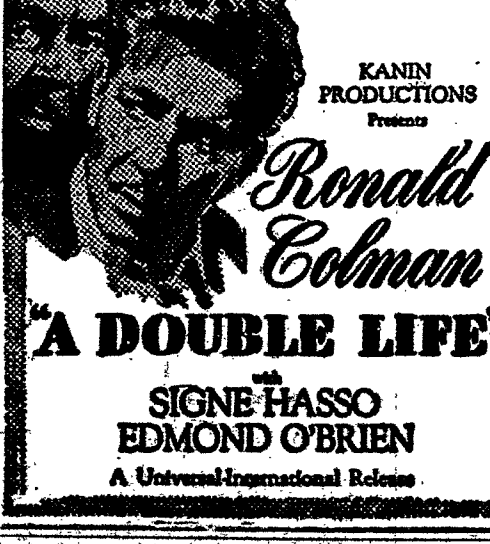

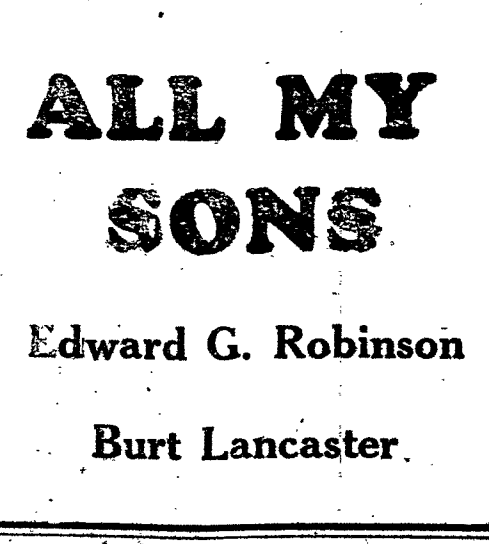

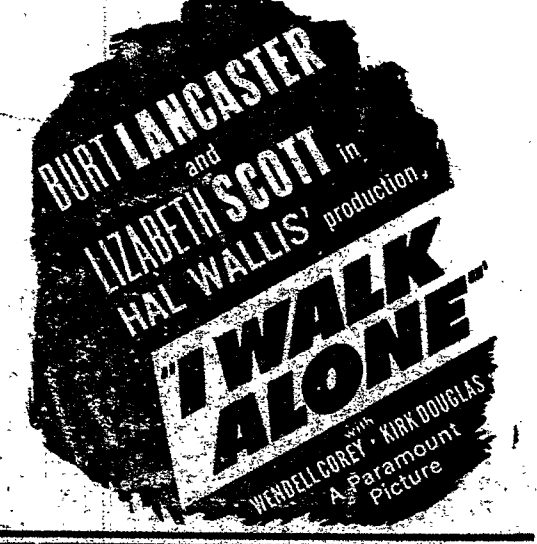

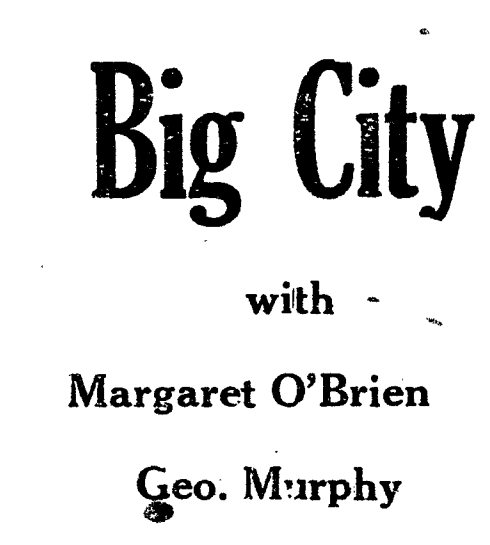

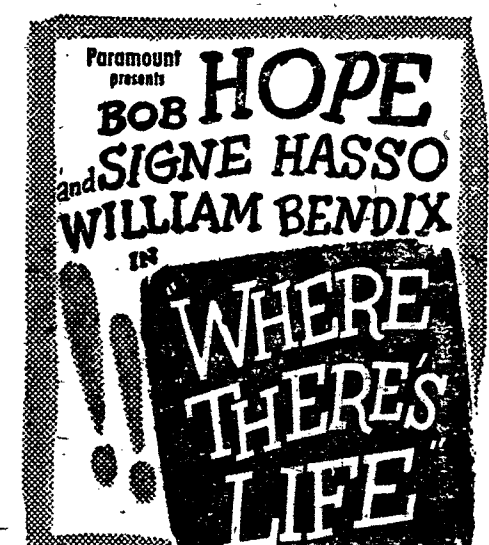

I want to assure you folks of Bay St. Louis that I stand for the principles and ideals of a true American and that I wholeheartedly solicit your support and influence in the city election, July 10. This is your city—the place you have chosen. Let's live and let live.

Your Independent Candidate,

EARL F. RAMOND.

**A. & G. THEATRE SUNDAY & MONDAY "CAPTAIN FROM CASTILE"**

Stars Power In Brilliant Technicolor Production

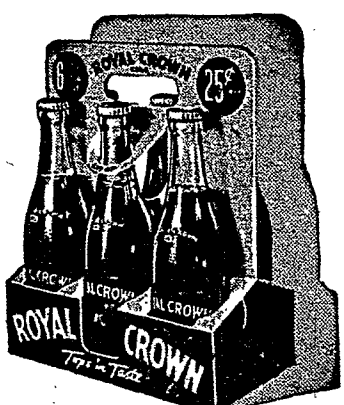

"Captain From Castile," Darryl F. Zanuck's Technicolor presentation of the brilliant best-selling novel by Samuel Shellabarger, comes to the screen of the A. & G. Theatre on Sunday and Monday with Tyrone Power in the lead role of Pedro de Vargas.

For millions of readers, the thrill-packed saga of history's boldest soldiers of fortune and of their conquest of an empire for gold and glory, opened up new worlds of adventure, drama, romance and violence. For Twentieth Century-Fox, the task of capturing on film its magnificent sweep and breath-taking spectacle presented on unprecedented challenge in movie-making.

Zanuck assigned Lamar Trotti, ace writer of such outstanding screen plays as "The Razor's Edge" and "Wilson," to write the screen play as well as to produce "Captain from Castile." Trotti handed in a script that was immediately hailed as having captured the full, rich flavor and excitement of the story of the love between a Spanish cavalier and a barefoot peasant girl, both of whom fled from Spain during the Inquisition to brave the hardships and dangers, and share the adventures of Cortez's historic conquest of Mexico.

Tyrone Power is seen as Pedro de Vargas, high-spirited son of an aristocratic family who fell into the clutches of the Inquisition, and who, forced to flee his homeland, finds glory and true love with the army of the conquistadors. The role of the dashing and heroic de Vargas gives Power an opportunity to add what may well be his most brilliant portrayal to a long list of successes.

With the assignment of 20-year-old, "unknown" Jean Peters to play the feminine lead opposite Power, there emerged one of Hollywood's most exciting Cinderella stories, who came to Hollywood as a reward for winning a campus popularity contest, won the coveted role of Cantana after the studio had considered and tested a number of movieland's "big name" stars. Preview critics are already rating Miss Peters as the most exciting film discovery of the past five years.

"From where I sit"  
... by Joe Marsh

Can't Break His Good Habits

Bert Childers was saying, it's funny how so many of our wartime habits stick with us, even for years after.

Bert likes plenty of butter on his bread, but even now he can't get over spreading it like it was just as scarce as hen's teeth. And when he was a war worker, Bert used to stick to a temperate glass of beer on time off; and he still holds fast to beer and moderation.

It's the same way with Bert's wife. She not only hasn't any trouble saving used fats, and waste paper. She's also learned from wartime necessity to save every single thing that might possibly be used again.

From where I sit, it's mighty good that so many of these common-sense habits like thrift and moderation have stayed with us. Because they belong in America—along with tolerance, and mutual respect, for one another's rights. They're habits that have helped to make this country strong and neighborly and free.

**Juniors Of Bay High Entertain Seniors**

In the annual Junior-Senior From given by Bay High Junior Class there was a slight deviation this year and the juniors entertained the seniors at a costume party in the gymnasium of the school and each senior came clothed in a song title. Some of the costumes were indeed clever and it was hard to identify them and harder for the judges to decide on the best and second best. Sometimes it became necessary for the senior to sing or have sung the song he or she represented. Gay Curet, daughter of Mr. and Mrs. George Curet, of Kiln carried off the first prize in the girls' class and her costume portrayed "A Million Dollar Baby in a Five and Ten Cent Store." The runner up who was awarded second prize was Charla Russell who represented "Sing to me Gypsy." In the boys' class the first prize went to the school's band director, George Wimberly who was dressed as "The Sheik of Araby." Tommy January carried off the second prize costumed as "Golden Ear Rings." Bobbie Baxter won the booby for his interpretation of "East Side, West Side" which was uted with politics and in Tammany Hall at that.

The party ended with a good old fashioned square dance.

## By-gone Days

By UDELL FAVRE

Back in the horse and buggy days when Grandma was a young girl, and the new style of today was the old style of yesterday 1893 to be exact, the Echo, in its infancy, was the chronicle of news of the time.

In this new column we shall reminisce the happiness of those eventful days of yesteryear.

At that time, just as we did this year, residents were repairing the storm damage; and the first bath house wharf to go up after the storm of 1893, was owned by Frank Tacom. Mrs. Annie Allen owner and operator of the Bay St. Louis Hotel was making repairs on her property.

As evidence of its prosperity, the Sea Coast Echo was enlarged to a seven-column folio, and it crusaded for good, uniform side walks, a boom to attractiveness of this lovely little city.

Mrs. E. J. Nicholson and sons Masters York and Leonard left Port Nicholson for their winter home in New Orleans.

Ladies' Minerva Mutual and Benevolent Association celebrated their first anniversary with a ball at Fireman's Hall.

Excursions were the thing of the day, and the L. & N. ran a special train for that purpose on Sundays. Many visitors came to the city on these days.

Horses just couldn't be trusted all the time as the horse attached to the grocery wagon of L. Bourgeois and Brother of Waveland, became frightened and ran away, but was stopped before any damage ensued.

Mr. and Mrs. Jenks and baby son visited Dr. and Mrs. L. H. Von Gohren.

Mr. W. L. May was associated with Mr. Charles G. Moreau in the publication of the Bay St. Louis Sea Coast Echo.

The Times-Democrat of New Orleans collected over \$10,000 for storm sufferers.

Our Lady of the Gulf Catholic Church celebrated All Saints Day. Very Rev. Father Ledue conducted services at the cemetery.

Mrs. C. K. de Lappe and daughter visited Dr. and Mrs. L. A. deMontluzin; and Mr. Rene deMontluzin, one of the polite and accommodating clerks of the Bay St. Louis Drug Store let for New Orleans and Baton Rouge to visit friends.

Our city officials in 1893 were J. V. Toulme, Mayor; C. C. Hart, L. Olivari and T. Carver as aldermen.

Members of the Kings Daughters opened a public library, and their many friends donated books to this worthy cause. The library stayed open on certain evenings of the week for those who worked and could not visit it in the day.

Edward Murtagh, a member of the fire department, died.

Citizens of Waveland sought to have laws passed to stop the fast driving which was growing to be a menace to the community.

Next week we will have more of the memories of bygone days.

### Closing Exercises At Lakeshore School

## THE TUBERCULOSIS SANATORIUM

Since its establishment in 1916 the state tuberculosis sanatorium has grown from the original two little cottages to a plant of more than two million dollars investment with a bed capacity of 450 patients, stated Dr. Henry Boswell, superintendent of the sanatorium for more than 30 years. In addition, he said, a two-hundred bed hospital for Negroes will be provided in the near future.

"Patients are taught everything possible about the prevention of tuberculosis so that back in the community to which they return they can justify the expenditure of money by the state in rebuilding them to normal, healthy individuals who can help their families and neighbors with the knowledge gained in our institution," Dr. Boswell reported. "A sanatorium if properly run is equipped not only to treat the disease but to treat the individuals while they have the disease and to maintain such employment under vocational rehabilitation that patients are trained to do light work in their original jobs when returned to them, or are trained in completely new jobs. Especially is this necessary when their old jobs were hazardous to health. The sanatorium is now carrying more patients than ever in its history and returning daily to the citizenship of the state well and trained people to resume active life and the care of their families.

"In our opinion streptomycin is the most promising drug yet discovered in the treatment of tuberculosis," Dr. Boswell revealed. "Yet it is still an experimental drug and should never be given outside of a hospital where the patient is under constant observation. Complications and reactions may occur which may be permanent and damaging to the patient. Where they are in an institution and under control these complications can be discovered early and the use of streptomycin discontinued before any damage is done."

## FACTS FROM THE RECORD

To The Citizens of Bay St. Louis:

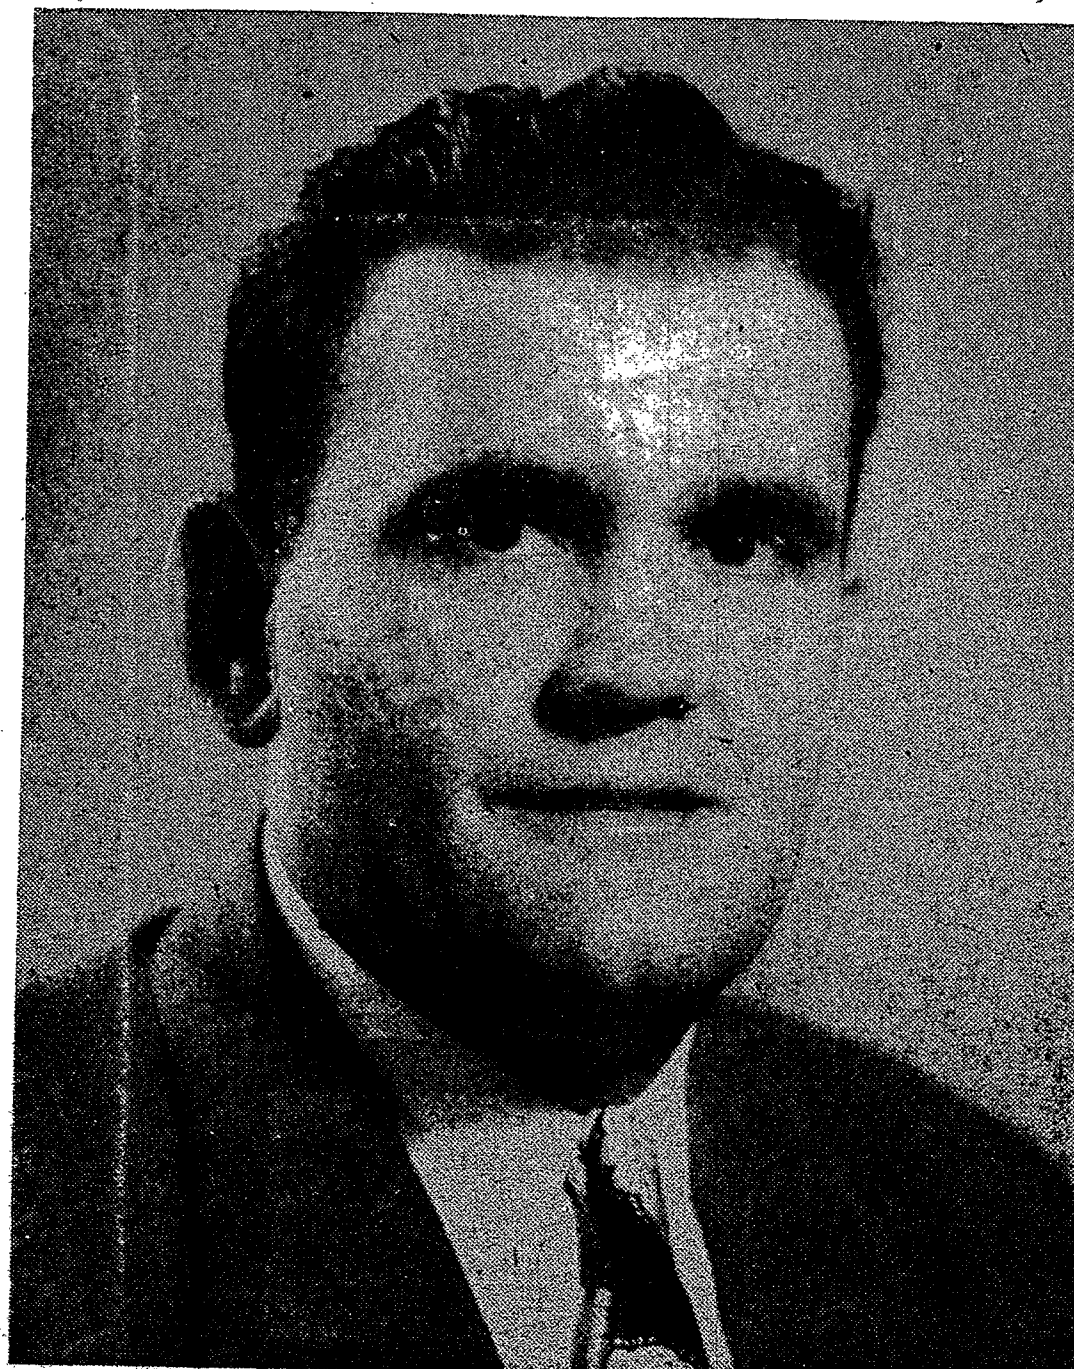

In approximately four weeks, we, the voters of Bay St. Louis, will have the opportunity of expressing our convictions in one of the most important elections in the history of our City. The future of Bay St. Louis may well hang in the balance. It is most important that each and every one of us be prepared to cast an informed and intelligent vote. In order to help make this possible, I am submitting for your consideration, facts and figures from Official Records. In my last two articles, I presented you with official records, which showed conclusively that our present administration is either incapable, or unwilling to conduct our City affairs in an efficient and business-like manner.

Here are more facts based on OFFICIAL RECORDS; the following instance is taken from the official minutes of the 1st Regular City Board Meeting of April 4th, 1938. Under bills allowed payable from the City Fund, is the following disbursement:

To—Amiesite Asphalt Co. For—Steam Roller—Amt. \$850.00. The minutes show proof of publication of "Notice to Bidders" for "1 Three Wheel Steam Roller," but there is no record of a bid by the Amiesite Asphalt Co., or any other company; nor is there a record of the acceptance of a bid. Is it possible that an "omission" of this kind was an oversight? I don't think so. Is it possible there was never any such bid presented? How about it Mayor Blaise?

I must say, however, the Steam Roller was delivered. Whether it was ever used or not, I don't know. By the way, if anyone cares to see "Bull's Folly," it is presently snugly and permanently tucked away in a garage on the City Water Works property. Why it wasn't given to the Government during the war to make bombs and bullets out of, is a mystery to me. It would have been worth the \$850.00 investment.

The City School Board purchased a new school bus last Aug. This bus represents a most wise investment of close to \$3000.00. Our City Fathers have yet to provide storage or garage facilities for the bus; it must be kept outdoors. Why doesn't Mayor Blaise get rid of his three wheeled monstrosity and make the garage space available for the School bus? If he is afraid someone may see the thing being towed out of the garage (I feel sure it won't run), I suggest he have it moved at night.

My friends, many of you have been wondering what in the world has been happening to the thousands of dollars of tax money that we have been paying into the City Treasury during the past 16 years. This Steam Roller Deal, along with the "Pipe deal" and "dirt deal", which I presented in previous issues of this paper, are three typical examples of how the taxpayers money has been squandered. There are many others and I am going to acquaint you with as many as possible, during the time remaining before election.

Last Monday, June 7th, the City Board held its first regular meeting of the Month of June, and I was present.

Bids for gravel, sand, asphalt cement and asphalt distribution were opened and considered. The above materials are going to be used to do some of that 11th hour "paving" which I predicted would happen more than a month ago. After the Board had accepted the lowest bids, I asked the following question; "Gentlemen, where do you intend to get the money to do this hardsurfacing?" Mayor Blaise very quickly and sharply retorted, "Its none of your d--- business." I immediately asked Mr. Bourgeois if that was his official answer. Mr. Bourgeois replied, "No it is not." I directed the same question to Mr. Perkins and he answered, "Most definitely no." I told the Board I had asked a civil and intelligent question and expected to be answered in that manner. Mr. Bourgeois then proceeded to tell me that they intended to ADD A 3 MILL Levy to the taxes next year and that the City would borrow money on that anticipated revenue. Mr. Perkins evaded the question by explaining that the fact that the Board had accepted bids for these materials did not necessarily mean that work would begin immediately. He pointed out that the bids which were accepted would not become invalid until December and that the City could begin construction any time before the invalidation date. Some of you may ask this question; how do I know the City does not have funds available now? My friends, the May bank balances of all the City Funds are matters of public records, and I took it upon myself to examine them. I can assure you that the City Special Improvement Fund, as of May 31, doesn't have enough money in it to pave a good sized side walk.

You know, it may be just possible that Mayor Blaise, after 16 years in office, may have really developed the contorted idea, that means and methods" of spending the taxpayers money, IS NONE OF THEIR BUSINESS.

I repeat, the coming city elections may well be the most important in the history of Bay St. Louis. Every voter should be prepared to cast his ballot intelligently. If we do this, then we need have no fear or misgivings about the future of Bay St. Louis.

Sincerely yours,

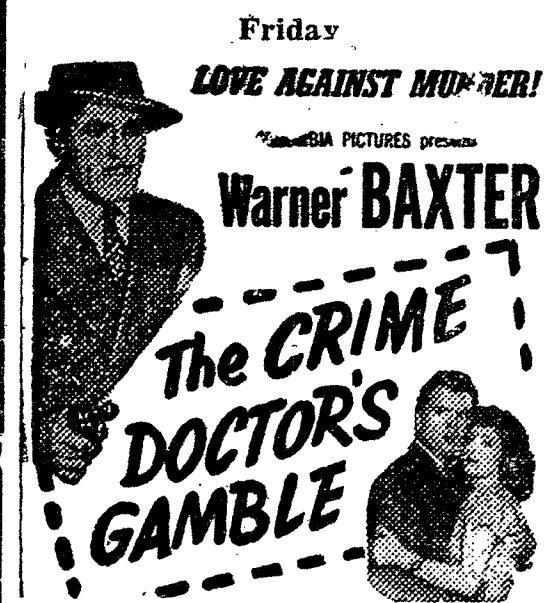

JOHN A. SCAFIDE.

**Veterans' News**

The Veterans Administration reminds all veterans training in colleges and universities under the GI Bill that they will automatically be granted 15 days leave at the end of the present term.

Subsistence allowance will be paid and entitlement charged for this leave period.

Veterans who do not want their entitlement reduced by the leave should already have posted notices to VA.

Most of the veterans studying in schools and colleges under the GI Bill and the Vocational Rehabilitation Act (Public Law 16) for disabled veterans are attending one school only, a Veterans Administration survey reveals.

The survey, based on the training elections of the 1,800,000 veterans in schools during November, 1947, shows 1,609,000 confined their studies to a single school.

Almost 4,000 study in more than one school. Combining school and job training, but taking the majority of the training in schools are 15,700.

Over 171,000 limit their studies to correspondence schools, while 1,440 combine regular school studies with correspondence school work.

Veterans needlessly take the chance of losing their money and their insurance protection when they mail cash to pay premiums on National Service Life Insurance policies, Veterans Administration warned.

A veteran making his payments in cash through ordinary mail has no way to prove he made the payment in the event it fails to reach VA. Veterans are urged to use money orders, postal notes, or checks for NSLI premiums, and also to use the yellow envelopes furnished by VA in mailing payments.
